Information in relation to TEN-T Port Development Master Plan of Hungary

DESCRIPTION OF INFORMATION TO BE INCLUDED	INFORMATION	
1. General information on the plan of		
Name of the plan or programme	TEN-T Port Development Master Plan of Hungary (Master Plan)	
Type and sector of plan or programme (e.g., local land use plan, national energy strategy)	Transport	
Territorial coverage (e.g., regional, national)	National	
Main content and purpose of the plan or programme (e.g., framework setting for projects, determination of use of land) and its links with other plans or programmes	In line with the guideline defined in the EU White Paper "Roadmap to a Single European Transport Area – Towards a competitive and resource efficient transport system", the objective of Hungary is to reach 10% inland waterway transport in the volume of domestic freight transport by 2030. In order to reach this objective, it is essential to encourage a change in transport modes.	
	The Master Plan defines the following strategic objectives:	
	The Master Plan directly links to the National Transport Strategy of Hungary adopted and published in August 2014.	
Whether the plan or programme is binding	Binding Not binding	
2. Submitted documents		
Draft plan	Enclosed a 34-page summary in English	
Environmental Report	Enclosed a 11-page summary in English	
Other documents (with description)	UNECE recommended notification form with summary information on the SEA	
Languages into which documents are or will be translated	The preliminary information is provided in English. In case of participation in the SEA procedure as an Affected Party, language regime will be agreed between the Parties based on the provisions of the Espoo Convention and SEA Protocol.	
3. Description of the decision-making procedure and of the strategic environmental assessment (SEA) procedure in the Party of Origin		
Description of the phases of the planning procedure	The following phases have been identified during the development of the Master Plan: • identification of national objectives • comparison of the current and the proposed state by gap assessment • development of network plan • development and evaluation of the options for each intervention • further development of the strategic scenario that was made based on the selected options • development of the action plan for the strategy • fitting the case study to the action plan	
Legal basis for the planning procedure (quoting the regulation or other legal basis)	Not relevant	

Description of the phases of the SEA procedure, including participation of the Affected Party	Procedural steps are based on provisions of Government Decree No. 2/2005. (I. 11.) on the environmental assessment of certain plans and programmes (2/2005 (I.11.) Gov. Decree) transposing the Directive 2001/42/EC on the assessment of the effects of certain plans and programmes on the environment (SEA Directive) and Government Decree No. 132/2010 (IV. 21) on the announcement of the protocol adopted on May 21, 2003 in Kiev on strategic environmental assessment related to the Convention on environmental impact assessment in a transboundary context done at Espoo (Finland) transposing UNECE SEA Protocol (SEA Protocol).
	The SEA consists of the following main phases: • development of the Scoping Report corresponding with the preliminary content of the Environmental Report, outlining the main topics to be elaborated. • development of the Environmental Report • consultation with environmental and health authorities • public participation • decision making • monitoring
Legal basis for the SEA procedure (quoting the regulation or other legal basis)	The Master Plan has been identified as a plan within the scope of EU Directive 2001/42/EC, as implemented by the Government Decree No. 2/2005. (I. 11.), therefore, a Strategic Environmental Assessment (SEA) shall be conducted before its adoption.
	Procedural steps are based on provisions of Government Decree No. 2/2005. (I. 11.) transposing the Directive 2001/42/EC, as well as Government Decree No. 132/2010 (IV. 21) transposing UNECE SEA Protocol
Present phase of the planning procedure and of the SEA procedure	<u>Domestic:</u> Plan owner has finalized the Scoping Report and compiled a summary of the Master Plan as well as the Environmental Report for the Master Plan. Consultation with the own public has been closed, recently a consultation with environmental and health authorities is still in progress.
	Transboundary: Plan owner undertook a screening to identify if there were likely significant transboundary effects on the environment in neighbouring states. This concluded that the proposed Master Plan is not likely to have such effects. This assessment has adopted a precautionary approach to the information currently available. Hungarian Ministry of Agriculture (HMA) was asked to forward the documentation to the Slovak Republic for its information.
Time schedule of the foreseen continuation of the planning procedure and of the SEA procedure	The time schedule of the procedure is the following: • Development of the Environmental Report (08.08.201930.11.2019., finished) • Consultation and evaluation phase of the Environmental Report (01.12.201915.08.2020.) • Finalisation of the SEA (15.08.202020.08.2020.)
Process and timing of the possible adoption of the plan or programme	Compulsory adoption of the Master Plan – early Autumn 2020.

Г
