

This is a detailed urban planning map of a city district, likely in the Czech Republic, showing various land use zones, infrastructure, and geographical features. The map is color-coded and labeled with codes like BC, OV, BM, ZM, ZC, and DT. It includes a large number '8' in the bottom left, a large number '2' in the center, and a large number '9' in a yellow box near a building labeled 'VD'. A legend in the bottom right corner shows a north arrow and a scale bar.

The map features a central area with a grid of streets and buildings, colored in shades of orange and brown. To the left, there is a large green area with a winding blue line, possibly a river or a park. To the right, there are more urban areas with different colors like red, purple, and yellow. The map is divided into several zones, each labeled with a code: BC (blue), OV (orange), BM (brown), ZM (green), ZC (yellow), and DT (dark blue). There are also several yellow boxes with numbers: 4a, 5a, 7a, 12, 1, and 9. A large number '8' is in the bottom left, and a large number '2' is in the center. A legend in the bottom right corner shows a north arrow and a scale bar.
