Figure 1. A schematic diagram of the experimental design. The diagram shows a sequence of events: a subject is presented with a stimulus (a red dot), followed by a response (a red dot), and then a feedback (a red dot). The sequence is repeated for multiple trials, with the subject's response and feedback being recorded. The diagram is divided into two main sections: 'Stimulus' and 'Response', with a 'Feedback' section at the bottom. The 'Stimulus' section shows a red dot on a black background, and the 'Response' section shows a red dot on a black background. The 'Feedback' section shows a red dot on a black background. The diagram is labeled with 'Stimulus', 'Response', and 'Feedback' at the bottom.
